Yesterday the 5th Thailand National KM Conference came to an end. Prof. Nonaka's [keynote address](#) was a delightful start of what was yet to come. I am sure we can say that it was a great success for both KMI and for the IKI-SEA. We would like to thank all workshop participants and hope you enjoyed our workshop as much as we did.

We have uploaded a lot of pictures to our [Facebook Page](#) and please email us **iki (at) bu.ac.th** with your name, position and organization in order to get an electronic copy of the workshop presentation.
