

Free Event with Dave Snowden: Knowledge and Innovation

Written by Christian Walter
Tuesday, 28 May 2013 16:07

Knowledge and Innovation

Thursday **6th June 2013** / 6pm to 8pm
at **Bangkok University City Campus (Rama 4 road)**
Building 9

FREE EVENT

Dave Snowden is the founder and Chief Scientific Officer of Cognitive Edge. His work is in the area of naturalising sense-making, seeking to base social science research and practice in the natural science. He is generally considered to be a pioneer in the application of complex adaptive systems theory to a range of social issues. His work extends across government and industry in a variety of fields including knowledge management, strategic planning, conflict resolution, weak signal detection, decision support and organisational development.
