In his latest book (The Shallows) Nicolas Carr (Author of IT Doesn't matter and The Big Switch) is asking **"Is the Internet making us stupid?"**. Nicholas Carr argues that the Internet is changing dramatically how we think, remember and interact. He recently publishes an article in the Telegraph online that will give you a good preview of his theory. Enjoy! http://www.telegraph.co.uk/technology/internet/7967894/How-the-Internet-is-making-us-stupid.html
