

We will be happy to develop a workshop/seminar based on the particular Knowledge Management or Innovation Management needs of your organization. You will find below a list of additional topics that could be offered but, once again, we are open to anything, just let us know what your needs are and we will design a customized workshop/seminar for your organization. Workshops/seminars can also be designed around industry topics like KM in Banking, KM in Healthcare, KM in Government, KM in Education, ...

Examples of additional KM topics:

- Boosting Creativity
- Innovation Management
- Social Network Analysis (SNA)
- Identifying your critical knowledge (using MASK II method)
- KM Strategy and strategic alignment
- Eliciting/capturing the knowledge of your experts and create a knowledge book (MASK I method)
- Mapping Knowledge Processes and Knowledge Process Improvement
- Learning tools and processes (After action review (AAR), Retrospect, Peer assist)
- Knowledge Engineering
- Knowledge Mapping
- Intellectual Capital
- Taxonomies, Ontologies
- Social Networking Tools (Web 2.0)
